Research Interest

Representation learning in finance and its applications to portfolio management, generative models, and derivatives.

Education

- Ph.D. in Industrial Engineering, Hanyang University, 2021.03 – 2026.02
  - Dissertation: *Representation Learning in Financial Markets for Portfolio Management*
  - Research Assistant, Financial Innovation & Decision Analytics Lab
  - Supervisor: Prof. Jae Wook Song
  - GPA: 4.31 / 4.50
- B.A. in Economics and Finance (Minor in Finance), Hanyang University, 2016.03 – 2020.02
  - Cum Laude
  - GPA: 4.00 / 4.50

Research & Professional Experiences

Risk X
Head of Research, Risk X tech Lab, 2026.03 – Present
Quantitative AI Researcher, Risk X tech Lab, 2025.07 – 2026.02

Hanyang University
Research Assistant, Financial Innovation & Decision Analytics Lab, 2021.03 – 2026.02
Advisor: Prof. Jae Wook Song

Hanyang University
Undergraduate Intern, Business & A.I. Lab, 2019.08 – 2019.12
Advisor: Prof. Jong Woo Kim

Research & Publications

International Journals & Conference Proceedings (*: Corresponding)

[4] **Kim, Namhyoung**, and Jae Wook Song*. "Vector-Quantized Discrete Latent Factors Meet Financial Priors: Dynamic Cross-Sectional Stock Ranking Prediction for Portfolio Construction." *Proceedings of the 35th International Joint Conference on Artificial Intelligence* (IJCAI-ECAI 2026). Acceptance rate: 13.6%.

[3] Na, Yosep, **Namhyoung Kim**, Joon Ho Jun, and Jae Wook Song*. "HAR-CEV: Attentive Mean-Reverting Volatility Forecasting under Unseen Economic Regimes." *Proceedings of the 7th ACM International Conference on AI in Finance* (ICAIF '26). To appear.

[2] **Kim, Namhyoung**, Yosep Na, and Jae Wook Song*. "Deep Mean-Reversion: A Physics-Informed Contrastive Approach to Pairs Trading." *Proceedings of the 6th ACM International Conference on AI in Finance* (ICAIF '25). Oral presentation, acceptance rate: 15.5%.

[1] **Kim, Namhyoung**, Seung Eun Ock, and Jae Wook Song*. "FactorVQVAE: Discrete Latent Factor Model via Vector Quantized Variational Autoencoder." *Knowledge-Based Systems* (2025): 113460.

Domestic Journals (*: Corresponding)

[1] Ock, Seung Eun, Jun Young Byun, **Namhyoung Kim**, and Jae Wook Song*. "Machine Learning-based Regional Healthy Life Expectancy Estimation Model: An Empirical Analysis Using Gyeongsangbuk-do Data." *Korean Management Science Review* 41.1 (2024): 51–70.

Working Papers (*: Corresponding)

[3] **Kim, Namhyoung**, Yosep Na, Jiwon Park, and Jae Wook Song*. "LEXICON: Making Factors Talk with Language-Aligned Discrete Codebooks in Stock Return Prediction." Revise & Resubmit, ACM SIGKDD 2027.

[2] **Kim, Namhyoung**. "PRAXIS: Policy-Coupled Group Robustness for Interpretable Deep Hedging."

[1] **Kim, Namhyoung**. "Decision Space Quantization."

Presentations

International Conference (*: Corresponding)

[5] **Kim, Namhyoung**, and Jae Wook Song*. "Vector-Quantized Discrete Latent Factors Meet Financial Priors: Dynamic Cross-Sectional Stock Ranking Prediction for Portfolio Construction." *Asian Quantitative Finance Conference* (AQFC 2026), 2026.07, Pohang, Korea.

[4] Na, Yosep, Jun Young Byun, Jungyoon Song, **Namhyoung Kim**, and Jae Wook Song*. "Probabilistic Forecasting of High-Frequency Crypto Volatility via Decomposition-Integrated Recurrent Neural Networks." *Workshop on Rethinking Financial Time-Series, The 6th ACM International Conference on AI in Finance* (ICAIF-W), 2025.11, Singapore.

[3] **Kim, Namhyoung**, Janghyuk Youn, and Jae Wook Song*. "FPQ-VAE: A Dynamic Factor Model Fusing Financial Priors and Vector-Quantized Factors for Stock Rank Prediction." *Workshop on Advances in Financial AI, The 34th ACM International Conference on Information and Knowledge Management* (CIKM-W), 2025.11, Seoul, Korea.

[2] Song, Jae Wook*, **Namhyoung Kim**, and Dongwon Ryu. "Deep Hedging of Equity-Linked Securities." *INFORMS Annual Meeting*, 2024.10, Seattle, WA, USA.

[1] **Kim, Namhyoung**, Seung Eun Ock, and Jae Wook Song*. "Risk Propensity-specific Portfolio Recommendation via Self-supervised Learning." *Workshop on Recommender Systems in Finance (Fin-RecSys), The 33rd International Joint Conference on Artificial Intelligence* (IJCAI-W), 2024.07, Jeju, Korea.

Domestic Conference (*: Corresponding)

[6] **Kim, Namhyoung**, and Jae Wook Song*. "PRISM-VQ: Fusing Financial Priors and Vector-Quantized Latent Factors for Dynamic Cross-Sectional Stock Prediction." *Fall Conference of the Korean Association of Futures and Options* (KAFO), 2025.12, Seoul, Korea.

[5] **Kim, Namhyoung**, Juhwan Kim, and Jae Wook Song*. "Vector Quantization for Efficient Financial Representation Learning." *Spring Joint Conference of KIIE/KORMS/KSS*, 2025.06, Jeju, Korea.

[4] **Kim, Namhyoung**, Seung Eun Ock, and Jae Wook Song*. "FactorVQVAE: Discrete Latent Factor Model via Vector Quantized Variational Autoencoder." *Joint Conference with the Allied Korea Finance Associations*, 2025.05, Seoul, Korea.

[3] Kim, Juhwan, **Namhyoung Kim**, Seung Eun Ock, and Jae Wook Song*. "Pairs Trading via Contrastive Learning." *Spring Joint Conference of KORMS/KIIE/KSS*, 2024.05, Yeosu, Korea.

[2] Park, Minho, **Namhyoung Kim**, Jun Young Byun, and Jae Wook Song*. "Data Augmentation in Embedding Space for Natural Language Processing based on the Vector Quantized Generative Adversarial Networks." *Spring Joint Conference of KIIE/KORMS*, 2023.06, Jeju, Korea.

[1] **Kim, Namhyoung**, Young Hoon Choi, Minho Park, and Jae Wook Song*. "Can a Pre-trained Language Model Be a Superior Counsel in Equity Research Report-Driven Investment Strategy?" *Spring Joint Conference of KORMS/KIIE*, 2022.06, Jeju, Korea.

Projects & Grants

Research Grants

[6] ELS Hedging Decision System via Neural Optimal Control
Seoul Business Agency (SBA), Fintech Commercialization Program, 2026.07 – Present. (Project Lead)

[5] Investor-Tailored Structured Derivatives via Time-Series Generation
TIPS R&D, 2026.04 – Present. (Technical Lead)

[4] Robust Generative Representation Learning of Financial Data Using Vector Quantized Variational Autoencoder and Its Applications
NRF of Korea (Research Grant), 2025.09 – 2026.08.

[3] Applications of Artificial Intelligence in Portfolio using Vector Quantization-Variational Autoencoder
NRF of Korea (Humanities & Social Sciences, Joint Research), 2023.06 – 2025.06.

[2] Loan Eligibility Classification Model using Explainable Artificial Intelligence
NRF of Korea (Research Grant), 2021.06 – 2023.02. (RA)

[1] An Education and Research Team for Sharing and Cooperation based Smart Systems
BK21 Four, NRF of Korea, 2021.03 – 2025.07.

Industry Projects

[7] Analysis of Financial Activities using AI Technologies
Korea Financial Telecommunications & Clearings Institute (KFTC), 2025.03 – 2025.07.

[6] Machine Learning-Based Model Portfolios for Retirement Pension Management
FnDataLab, 2024.03 – 2024.06.

[5] Pricing of Exotic Options and Structured Products via Machine Learning
Risk X tech Lab, 2023.10 – 2024.01.

[4] Machine Learning-driven Risk Rating Assessment of Global Investment Assets
FnDataLab, 2023.05 – 2023.08.

[3] Sales Analytics based on Graph Neural Network and Natural Language Processing
IOI Soft, 2022.11.

[2] Business Analytics for Small and Medium-sized Enterprises
Hyperlounge, 2021.10 – 2021.11.

[1] Business Effectiveness Analysis on Fine Dust Reduction Forest Project
KOFPI (Research Grant), 2021.05 – 2021.10.

Patents

- Three Korean patent applications, 2026: market scenario generation via Lie algebra, deep hedging system for structured products, and others.

Distinctions & Awards

- Outstanding Paper Award, Korean Management Science Review, KORMS, 2024.11
- BK21 Scholarship, NRF of Korea, 2021.03 – 2025.07
- A.I. Graduate School Support Project Scholarship, IITP of Korea, 2020.09 – 2020.10
- Cum Laude, Hanyang University, 2020.02
- Financial Quant Professional Training Project Scholarship, Hanyang University, 2018.12

Teaching Assistant

Hanyang University

- 11391 – Creative Programming for Engineers, 2025 Spring.

Technical Skills

- Programming: Python, PyTorch, LaTeX, Git, Docker, Linux, Weights & Biases
